- 20 years of investment experience

Joseph Higgins, CFA Managing Director

- Joined TIAA-CREF in 1995
- 20 years of investment experience

Nuveen Global Investors Fund PLC – An umbrella fund with segregated liability between sub-funds

TIAA U.S. Bond ESG Fund

The TIAA U.S. Bond ESG Fund seeks to offer competitive, diversified¹ core fixed-income return potential through actively managed investments in fixed income securities.

Investment objective

The Fund seeks a favourable, long-term total return through income and capital appreciation, as is consistent with preserving capital while giving special consideration to certain social criteria.

Investment philosophy

- Provides diversified fixed-income exposure and may be used as a U.S. core fixed-income allocation in a model portfolio
- Focuses primarily on undervalued, investment-grade securities and seeks to add value through duration and yield-curve positioning, sector allocation and security selection
- Applies ESG criteria, which can serve to drive performance, manage risk and uncover opportunity
- Includes an allocation to Proactive Social Investments (PSI) to help provide competitive risk-adjusted returns through fixed-income investments that have direct and measurable environmental or societal outcomes
- Maintains a portfolio with higher ESG performance quality than its benchmark

Key distinctions

- **Competitive, actively managed core fixed-income return potential with a portfolio of securities that have higher ESG performance quality than the benchmark.** The Fund's goal is to outperform its benchmark through investments in undervalued, primarily investment-grade, fixed-income securities subject to ESG criteria.
- **Competitive advantages** provided by our brand, experience, fixed-income research capabilities and institutional presence in fixed-income markets, as well as our historical commitment to responsible investing.
- **Core fixed income with a difference: Proactive Social Investments (PSI).** The Fund has a targeted allocation to a proprietary classification of securities, PSI, which help provide competitive risk-adjusted returns through fixed-income investments that have direct and measurable environmental or societal outcomes.

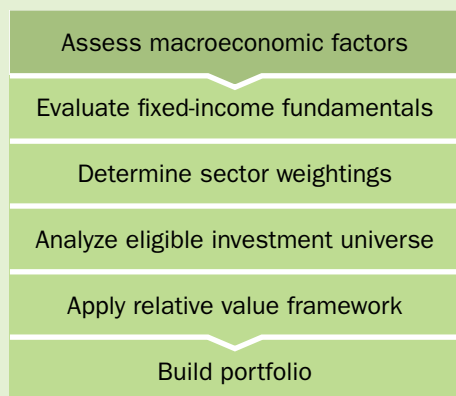

Financial Services

¹ Diversification does not guarantee future results.

Investment process

Extensive and rigorous research seeks to identify undervalued securities and to outperform the long-term performance of the Barclays U.S. Aggregate Bond Index.

Establishing the eligible investment universe

TIAA-CREF’s Responsible Investment team establishes and manages the ESG strategy for the Fund, including the development, continuous enhancement and board-level oversight of the ESG guidelines. The securities we consider for inclusion are leaders in their respective sectors on a broad set of environmental, social and governance criteria. TIAA-CREF partners with leading global ESG research providers to determine eligibility for TIAA-CREF’s ESG-focused family of products based on our ESG criteria. In addition, the Fund has a target allocation for proactive social investments using a proprietary classification and selection framework to determine PSI eligibility from an environmental, social or governance perspective. The PSI framework seeks to identify compelling investment opportunities with an emphasis on competitive, risk-adjusted return, and clear and measurable social and/or environmental benefits. These investments are made in public fixed-income securities and are focused on four main impact areas: affordable housing, community and economic development, renewable energy and climate change, and natural resources. These investments in public fixed-income securities, including agency debt, asset-backed securities, commercial mortgage-backed securities, corporate bonds, mortgage-backed securities and municipal bonds are subjected to the Fund’s relative value framework.

The Barclays Capital U.S. Aggregate Bond Index measures the performance of the U.S. investment-grade, fixed-rate bond market, including government and credit securities, agency mortgage pass-through securities, asset-backed securities and commercial mortgage-backed securities.

The Fund is subject to ESG criteria risk, namely the risk that because the Fund’s ESG criteria exclude securities of certain issuers for non-financial reasons, the Fund may forgo some market opportunities available to funds that do not use these criteria. Fixed-income securities are subject to interest-rate risk. When interest rates rise, the value of fixed-income securities generally declines. Investments in inflation-linked securities can be affected by changes in investors’ inflation expectations or changes in real interest rates.

You should consider the investment objectives, risks, charges and expenses carefully before investing. Please go to www.tiaa-cref.org/ucits for a current prospectus and Key Investor Information Document that contains this and other information. Please read the prospectus carefully before investing.

Nuveen Global Investors Fund PLC (The “Company”) is an umbrella fund, with segregated liability between sub-funds, established as an open-ended investment company with variable capital and incorporated with limited liability under the laws of Ireland with registered number 434562. It is authorized by the Central Bank of Ireland pursuant to the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011. Certain share classes of the Company are registered for public offer and sale in the Republic of Ireland, Germany, the Netherlands, Sweden, Switzerland and the United Kingdom and for institutional sales in Norway and Singapore (as a Restricted Scheme). Fund shares may be otherwise sold on a private placement basis depending on the jurisdiction. The Fund features portfolio management by Teachers Advisors, Inc., an affiliate of Nuveen Securities, LLC. Funds are distributed by Nuveen Securities, LLC, a subsidiary of Nuveen Investments, Inc.
