Investment objective

The fund seeks long-term growth of capital. The targeted asset allocation of 100% stocks aims to achieve an aggressive, growth-oriented risk/return profile.

Investment philosophy

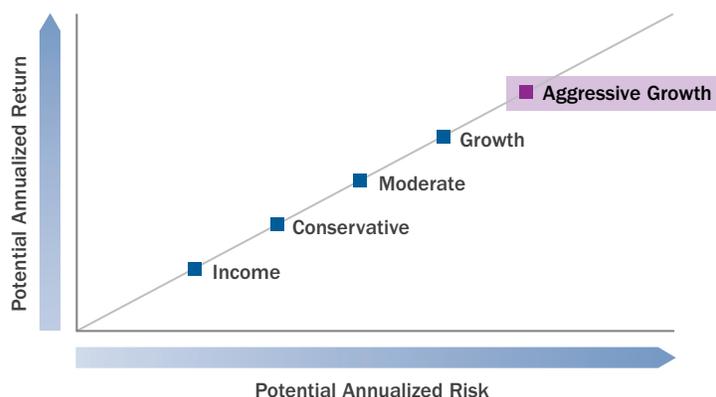

The investment team believes that an asset allocation strategy informed by rigorous research can help maintain a targeted level of risk and return, and that a portfolio consisting primarily of stocks has the potential to deliver a high level of capital appreciation designed to suit the needs of aggressive investors.

Key distinctions

- To seek outperformance and manage risk, the fund invests in stock funds that diversify across countries, regions, market caps and investment styles.
- Daily monitoring and active management aim to maximize returns and maintain consistent risk exposure within specific limits.
- The fund's fees are significantly less than the average of its respective Morningstar category.²

Risk/return profile

The Lifestyle Aggressive Growth Fund is designed for investors seeking growth of principal over time at an aggressive level of risk.

Expected annual return and risk levels are suitable for different investor needs. These levels are long-term estimates based on historical market returns and expectations for future returns. Actual performance may be higher or lower, depending on changing market conditions.

Investment process

The fund has a target allocation of 100% equity (stock) funds.

Equity allocation strategy

- The fund allocates its equity investments among U.S. stocks (70%) and international stocks (30%), including those of developed and emerging markets, for greater diversification.
- A combination of fundamental and quantitative active equity strategies can promote greater consistency of returns over time.

Fixed-income allocation strategy

- The fund may add an allocation to bonds during periods of high market volatility.

Risk management strategy

To avoid unintended risk exposure, the investment team reviews the fund's allocations daily, and rebalances the fund's portfolio monthly toward its target asset allocation. The team aims to remain fully invested by minimizing the portfolio's cash holdings.

Call 800 842-2252 or visit TIAA.org to learn more about us today.

1. The Lifestyle Aggressive Growth Fund Composite Index represents the market sectors in which the fund may invest. The fund's composite benchmark combines the following public indices in proportions that reflect the fund's target allocations: Russell 3000® Index and MSCI ACWI® ex-USA Index. Each index is unmanaged and reflects no deductions for fees, expenses or taxes. You cannot invest directly in any index.
2. Based on Morningstar data, as of 3/31/16, the expense ratios on TIAA-CREF Mutual Funds are generally less than half the mutual fund industry average (70% are less than half the Morningstar U.S. Open-End Fund Universe average and 63% are less than half the Morningstar U.S. Open-End Fund Universe median.)

You should consider the investment objectives, risks, charges and expenses carefully before investing. Please call 877 518-9161 or go to TIAA.org for a current prospectus that contains this and other information. Please read the prospectus carefully before investing. The fund is subject to the risks of the equity and fixed-income markets as well as asset allocation risk.
