	<b>Fixed annuities: Minimum crediting rate during accumulation</b>	3.00% for all TIAA Traditional premiums remitted since 1979.		Between 1.00% and 3.00%: Rate redetermined annually on January 1. 1. Private non-ERISA safe harbor employee elective deferral 403(b) plans may only utilize SRA/GSRA contracts.

2. RCP is the standard contract for new plans of this type effective January 1, 2013 and later. However, if these plans wish to use TIAA Stable Value and any other TIAA or CREF annuities, then the RC contract must be used since TIAA Stable Value cannot be used in a plan that uses an RCP contract. In this situation the RC version of TIAA Traditional may or may not also be used at the election of the plan sponsor.

3. Any guarantees under annuities issued by TIAA are subject to TIAA's claims-paying ability. TIAA Traditional is a guaranteed insurance contract and not an investment for federal securities law purposes. Payments under CREF and the TIAA Real Estate Account are variable and will rise or fall based on investment performance.

4. Mutual funds are not available under the terms of the contract; rather, mutual funds are made available under the terms of an individual or group custodial agreement.
