# BACKGROUND

---

- Governor Andrew Cuomo signed into law Chapter 18 of the 2012 Laws on March 16, 2012, which created the Voluntary Defined Contribution (VDC) Program.
- The original Program announcement is available on the New York State website at **[www.definedcontribution.ny.gov](http://www.definedcontribution.ny.gov)**.
- Beginning July 1, 2013, a defined contribution retirement plan option was made available to unrepresented employees of New York State (NYS) public employers hired on or after that date, and who earn at the rate of pay of \$75,000 or more annually.
- The VDC Program (VDC Program) was created as an alternate retirement plan option to help employees of public agencies/employers (meeting certain eligibility criteria) to build retirement plan accumulations that will help provide retirement income to meet their retirement goals.
- State employees have 30 days from their date of hire to select a retirement plan.
- The VDC Program must be offered as an alternative retirement choice to all eligible employees and these employees will need to choose between the VDC Program and the NYS defined benefit plans. Please refer to page 49 for a complete list of defined benefit retirement plans.
- The State University of New York Optional Retirement Program (ORP) was selected as the vehicle to accomplish this, and the Education Law was modified to permit this newly eligible class of public employees.

# CHARACTERISTICS OF THE VOLUNTARY DEFINED CONTRIBUTION PLAN

---

- The vesting period is 366 days. “Vesting” in a retirement plan means ownership. This means that the employee will vest, or own, certain employer contributions.
- Contributions made by the employee and the employer are allocated into investment choices offered through the plan’s investment options.
- Employees build their own investment mix/portfolio tailored to their risk tolerance and retirement time horizon.
- The VDC allows participant-directed investments. The amount owed to participants upon retirement is based solely on the account balance (all contributions and subsequent earnings) at the time of their withdrawal.
- The VDC provides lifetime income in the form of guaranteed and variable payments.<sup>1</sup> The amount of retirement income received will depend on how well the investments have performed over the intervening years and on the income options chosen.
- Employee and employer contributions plus applicable earnings are the employee’s to keep after reaching the vesting period of 366 days (subject to plan rules).
- After an employee separates from service, assets can remain in the plan. When an employee leaves public employment, several options are available, including: receiving lifetime annuity payments, lump-sum distribution, distribution in installments, and leaving the assets in the plan.

<sup>1</sup> All guarantees are subject to the claims-paying ability of the issuing insurance company. Payments from the variable accounts will rise or fall based on investment performance.

# CHARACTERISTICS OF THE STATE DEFINED BENEFIT PLAN (*CURRENT*)

---

- There is a five-year vesting period.
- The Plan provides a fixed, predictable lifetime monthly income at retirement.
- At retirement, members receive a guaranteed monthly pension payment based on a set of formulas.
- Payments are not affected by market fluctuations. Contributions are invested and managed by New York State to meet current and future pension obligations.
- If the employee leaves before completing the five-year vesting period, employee contributions are refunded, but the employer contributions are forfeit.

# VOLUNTARY DEFINED CONTRIBUTION VS. DEFINED BENEFIT COMPARISON

FEATURE	VOLUNTARY DEFINED CONTRIBUTION	DEFINED BENEFIT
 <b>Vesting</b>	After 366 days of employment.	After five years of service credit.
 <b>Portability</b>	Portable after 366 days. Employee and employer contributions plus applicable earnings are the employee's to keep after 366 days regardless of where their career takes them.	If employee leaves before reaching the five-year vesting period, employee contributions are refunded, employer contributions are forfeited.
 <b>Control</b>	Employees have the flexibility to manage the investment of their funds based on the investment options available in the plan. Professional guidance and support is available through authorized investment providers.	Funds are managed for the employee to meet current and future liabilities.
 <b>Risk</b>	The amount of future accumulations available upon retirement varies according to investment selections and performance. The employee bears the investment risk based on investment choices and performance.	Monies are pooled together and professionally managed, and the government bears funding and investment risk.
 <b>Expected income</b>	Retirement income is determined by the account balance: the employee has the opportunity for higher or lower retirement income based on investment decisions and the performance of the underlying investment options, which include securities. The retirement income benefit will depend on several factors including salary, duration of contributions, investment earnings and age at retirement. Benefits are not guaranteed.	Income is determined by a formula and depends on length of service, earnings, tier and age. The employee will receive a fixed monthly payment with annual cost-of-living adjustments.

# ELIGIBILITY

---

The VDC Program option must be made available to all employees of New York public employers/agencies who<sup>1</sup>

- Were hired on or after July 1, 2013
- Earn at the rate of pay of \$75,000
- Are unrepresented<sup>2</sup>

New York public agencies and employers are required to communicate this Program to all employees who meet the above requirements.

**Important:** Transferring NY State employees whose immediately preceding employment was with another department, division or agency of NY State *shall not be eligible* for the VDC and must remain with their current retirement system.

<sup>1</sup> A defined contribution plan is a type of retirement plan in which the amount of the employer's annual contribution is specified. Individual accounts are set up for participants and benefits are based on the amounts credited to these accounts (through employer contributions and, if applicable, employee contributions) plus any investment earnings on the money in the account.

<sup>2</sup> Unrepresented employee is an employee not represented by a union.

# CONTRIBUTIONS

---

- Defined contribution plans are retirement savings vehicles that provide benefits "defined" by employer and employee contributions to the plan and the investment earnings on those contributions.
- All contributions and any subsequent earnings are credited to individual accounts for each plan participant. The amount owed to participants upon retirement is based solely on the account balance at the time of withdrawal.
- Participants bear responsibility for managing the investments of their accounts throughout their careers; thus, each participant needs to select from among choices provided by the authorized investment providers and maintain an appropriate asset allocation to suit their individual preferences from among the investment options available within the plan.
- Professional guidance and support is available through all Program authorized investment providers to assist plan participants with investment allocation, savings strategies, decision making and fund distribution options.

# CONTRIBUTION RATES

- The employer contribution rate is 8% of wages.
- Employee pretax contributions rates are based on a rate of annual pay equivalent to \$75,000.

Wages of \$45,000 or less <sup>1</sup>	3%
Wages of \$45,000.01 to \$55,000 <sup>1</sup>	3.5%
Wages of \$55,000.01 to \$75,000 <sup>1</sup>	4.5%
Wages of \$75,000.01 to \$100,000	5.75%
Wages greater than \$100,000	6%

**Important:** The above contribution rates are subject to change by legislation passed by New York State.

<sup>1</sup> Salary rate will be considered in reaching the \$75,000 threshold. For example, if a part-time employee makes \$45,000 working 60% of a full-time schedule, then the salary rate would be \$75,000, and would qualify the employee to enroll in the VDC.

# VDC PROGRAM VESTING

---

EMPLOYEE CONTRIBUTIONS AND EARNINGS ARE ALWAYS FULLY VESTED. EMPLOYER CONTRIBUTIONS ARE SUBJECT TO VESTING GUIDELINES.

- The vesting period is 366 days.
- For employees with vested employer-funded retirement contracts through approved vendors from previous employment, vesting is immediate.
- During the vesting period, the employee and employer funds will be held in escrow by the employer. At the conclusion of the vesting period, the employer will apply the required annual interest rate of 4% to the funds held in escrow.
- Fully vested participants own all of the money in their accounts (employee and employer contributions), regardless of whether they continue to be employed with the same employer until retirement.
- A participant is not entitled to employer contributions if they terminate their employment before completing the required amount of service under the vesting schedule.
- The refund to the employee will include only the employee contributions along with 4% simple interest up to the date of termination. The employee non-vested pretax contributions should be refunded to the employee and returned on their final separation check (along with simple interest), so that it may be reported correctly on their wage and tax statement at year-end.
- Determination of vesting status is contingent upon history provided by the employee and validated by the employer. Vested employer-funded retirement contracts do not include 457 plans.

# DISTRIBUTION OPTIONS

---

## DISTRIBUTION OPTIONS

- Loans
- Death benefits

## ADDITIONAL OPTIONS AVAILABLE AT SEPARATION OF SERVICE

- Lifetime retirement income
- Single and/or systematic lump-sum withdrawals
- Minimum distribution payments
- Interest payments
- Rollovers

**Note:** Cash distributions are generally subject to ordinary federal income taxes and may be subject to an additional IRS 10% tax penalty for withdrawals made before age 59½.

The screenshot displays the New York State VDC Program website for Agency/Employers. The header includes navigation links: "For Employees", "For Agency/Employer", "VDC PROGRAM BENEFITS", "ELIGIBILITY", "AGENCY IMPLEMENTATION", "EMPLOYEE RESOURCES", and "CONTACT". The main content area features a large image of a smiling man and a text box stating: "A flexible, low-cost alternative to defined benefit plans. Introducing the New York State Voluntary Defined Contribution Program. NYSP agencies are required to offer the Voluntary Defined Contribution (VDC) program to eligible employees. Find out how to implement the VDC program at your agency. Download the Guide (PDF)".

**Eligibility**

All New York State agencies are required to offer the VDC program to eligible employees. You may be eligible for the VDC program if you have an estimated annual salary rate of pay of \$75,000 or greater.

You are not eligible if a union represents you. You may not be eligible if you previously participated in a New York State Public Defined Benefit plan. [View additional eligibility information.](#)

Employees have 30 days from their date of hire to enroll in the program.

**The Benefits of the Voluntary Defined Contribution Program**

**It's the law.**  
All New York State agencies are required to offer the VDC program to eligible employees.

**It's flexible.**  
A VDC plan can move to different agencies with employees, who can take cash withdrawals and name beneficiaries. Compare the VDC program to defined benefit plans.

**It costs less.**  
The VDC program costs significantly less from the agency's perspective than DB plans. For example, if an agency employee with an annual salary rate of pay of \$100,000 has a VDC plan, your agency could potentially save \$75,000 over 10 years.

**It vests rapidly.**  
Employees are fully vested after just one year. DB plans generally don't vest for 10 years.

**It lets employees take charge.**  
VDC programs offer more options in every department. Employees can choose investments and authorized investment providers including TIAA, JIG, Voya Financial and Fidelity. With defined benefit plans, the agency chooses the investments and the providers.

**Implementation at Your Agency**

The following resources can help you establish the VDC program as a retirement planning option for employees at your agency.

**The steps to implementation**

**For non-centralized payroll remitters:**

- 1 Request access to Plan Focus (PDF).
- 2 Establish an escrow account.
- 3 Provide your agency's payroll schedule.
- 4 Establish funding/banking.
- 5 Notify, educate and assist eligible employees. Download the VDC program enrollment guide (PDF).

**For centralized payroll remitters (OSC/OLR):**

- 1 Request access to Plan Focus (PDF).
- 2 Follow OSC Payroll Bulletin No. 1627 (OSC only).
- 3 Notify, educate and assist eligible employees. Download the VDC program enrollment guide (PDF).
- 4 When you have your first new enrollee in the VDC program, OSC will instruct you on how to add new employee(s) in PayServ.

## PLAN FOR A RETIREMENT THAT ONLY YOU CAN IMAGINE

As an employee of New York State (NYS) or New York City (NYC), you may have the unique opportunity to participate in the **New York State Voluntary Defined Contribution (VDC) Program**. The VDC Program is designed to help select employees build retirement plan savings.

For New York State and New York City employees, the VDC Program presents a new retirement savings opportunity. The Program is a defined contribution 401(a) retirement plan and is a flexible, rapid-vesting alternative to the defined benefit plans available to you.

The VDC Program mandates employer and employee contributions to your account. The employer contribution rate is currently 8% of the employee's gross annual salary. The employee contribution rate—currently 3%-6%—varies based on annual salary.

Retirement benefits are based on the amounts credited to individually owned retirement contract accounts (employer contributions and employee pretax contributions) plus any investment earnings on the money in the account. Contracts are provided by the Program's authorized investment providers: TIAA, Voya, AIG and Fidelity. The State University of New York (SUNY) is the plan sponsor of the VDC Program and TIAA is the third-party service provider.

Use this guide to learn more about VDC Program eligibility, features and enrollment, as well as how it compares to the defined benefit plan options.

Visit the VDC Program website at [www.vdc.ny.gov](http://www.vdc.ny.gov) to learn even more.

## ENROLLING IN THE PROGRAM

Enrolling in the VDC Program is fast and easy. Just go online and follow these four simple steps.

# EMPLOYEES RECEIVE THE EMPLOYER SHORT NAME FLYER

During this enrollment step, employees will be prompted to select their employer location/name. An abbreviated version of the employer's name was created for the New York State Voluntary Defined Contribution enrollment system. Each employee should receive a flyer providing them the name they should select during enrollment. Please note that selecting an incorrect employer will erase the employee's enrollment application.

## HOW TO INTERPRET RETIREMENT PLAN ELECTION QUESTIONS

**New York State**  
Voluntary Defined Contribution Program

# HOW TO INTERPRET RETIREMENT PLAN ELECTION QUESTIONS

**Question 1:** Have you ever been an employee of a public agency/employer within New York State?

Name of agency/employer	
Title of position	
Full or part time	
From date	
To date	
Name of retirement system	
Immediate prior employment? Yes or No	

- A non-State public agency employee with immediate prior employment at another non-State public agency can join VDC.
- A State agency employee with immediate prior employment at another State agency **cannot** join VDC.
- When employed in a position for which retirement system membership is mandatory, a public employee within New York State is required to select a retirement system within 30 days of employment and election to that system is irrevocable unless there is a “qualifying event.”

Refer to Frequently Asked Questions (FAQs) at [www.vdc.ny.gov](http://www.vdc.ny.gov) for additional information on qualifying events. Prior service in ERS or TRS qualifies for service credit under the VDC Program.

# HOW TO INTERPRET RETIREMENT PLAN ELECTION QUESTIONS

**Question 2:** Are you presently receiving a retirement benefit from any public retirement system of New York State?

Name of retirement system	Retirement contract number	Date of retirement
New York State Employees Retirement System (NYSERS)		
New York State Teachers Retirement System (NYSTRS)		
New York State and Local Police and Fire Retirement System (NYSPFRS)		
New York City Employees' Retirement System (NYCERS)		
New York City Teachers' Retirement System (NYCTRS)		
Board of Education Retirement System of the City of New York (NYCBERS)		
New York City Fire Department Pension Fund		
New York City Police Pension Fund (NYC-PPF)		
Manhattan and Bronx Surface Transportation Operating Authority (MaBSTOA)		

Employees receiving a benefit payment from any of the State or City retirement systems are not allowed to participate in the VDC Program.

# HOW TO INTERPRET RETIREMENT PLAN ELECTION QUESTIONS

**Question 3:** Do you currently own a vested employer-sponsored retirement contract with Corebridge Financial, Fidelity, TIAA, or Voya?

Provider	Contract number
Corebridge Financial (formerly AIG Retirement Services)	
Fidelity	
TIAA	
Voya	

If employee has a valid, fully vested employer plan contract or 366 days of service credit in ERS/TRS, they qualify for immediate vesting. Voluntary supplemental plans do not meet this requirement (e.g., deferred comp, 401(k)). If less than 366 days service credit in ERS/TRS, service credit may be applied against the VDC vesting period.

HR **must** verify ownership of contract by calling providers, applicable retirement system, or require employee to provide copy of retirement annuity statement.

If fully vested, begin remittance to TIAA. Do not put funds in escrow.

# MANAGE ESCROW ACCOUNT

EMPLOYER AND EMPLOYEE CONTRIBUTIONS SHOULD BE HELD IN AN ESCROW ACCOUNT UNTIL PARTICIPANT IS VESTED. VESTING IS EQUAL TO 366 DAYS OF SERVICE.

Plan administrators or their payroll provider will need to calculate the interest earned while monies are held in the escrow account using a simple per annum formula.

## Employee contributions

$$\begin{array}{ccccc} \text{Total amount} & & & & \\ \text{of employee} & & & & \\ \text{contributions in a} & & & & \\ \text{366-day period} & \times & \text{Interest rate} & \times & \text{Annum} = 1 \\ & & \text{set by law}^1 & & \end{array}$$

## Employer contributions

$$\begin{array}{ccccc} \text{Total amount} & & & & \\ \text{of employer} & & & & \\ \text{contributions in a} & & & & \\ \text{366-day period} \times 8\% & \times & \text{Interest rate} & \times & \text{Annum} = 1 \\ & & \text{set by law}^1 & & \end{array}$$

<sup>1</sup> Please be advised that the interest rate used in the calculation above is set by New York State Law and is subject to change.

## WHAT IF YOU DON'T HAVE AN ESCROW ACCOUNT?

---

- If your agency does not have an escrow account, you must create one.
- The recordkeeping of the employer and employee contributions held is maintained by the agency and is necessary to comply with plan reporting. This includes amounts reportable on the employee's W-2.
- If an employee terminates before meeting the 366-day vesting, he/she may request a refund of his/her contributions. If employee terminates from service before or after meeting their vesting period, the employer must update the employee profile record with status/termination date in PlanFocus®.

**Note:** Employer should only update record if the employee is vested at the time of separation, once final contribution by employer is made on employee's behalf.

# UPDATING CENSUS REMITTANCE FILE

Add new employee to payroll system and code with corresponding contribution level:

Wages of \$45,000 or less <sup>1</sup>	3%
Wages of \$45,000.01 to \$55,000 <sup>1</sup>	3.5%
Wages of \$55,000.01 to \$75,000 <sup>1</sup>	4.5%
Wages of \$75,000.01 to \$100,000	5.75%
Wages greater than \$100,000	6%

- Date of birth, date of hire, date of membership, and salary will need to be tracked.
- Determine who is 100% vested or will receive vesting credit from another retirement system.
- Your payroll will need to provide guidelines about how many days prior to the “payroll run date” an employee will need to be on payroll system to be captured on the payroll run.

<sup>1</sup> Salary rate will be considered in reaching the \$75,000 threshold. For example, if a part-time employee makes 45,000 working 60% of a full-time schedule, then the salary rate would be \$75,000, and would qualify the employee to enroll in the VDC.

# CONTRIBUTIONS – WHICH GO TO ESCROW

1. New employee with no ERS, TRS, or another State or City retirement system prior service credit (0 to 366 days)
2. New employee that does not own a prior employer-sponsored annuity contract with either Corebridge Financial (formerly AIG Retirement Services), Fidelity, TIAA, and/or Voya

\* During first 366 days, employee and employer money will be placed in escrow, payroll following completion of vesting (8/15/15), monies in escrow will be remitted to TIAA + interest on both employee and employer contributions + normal payroll employee contribution and employer contribution.

## NEXT STEPS

New York State  
Voluntary Defined Contribution Program

## NEXT STEPS – AGENCIES NOT SUPPORTED BY OSC OR OLR

---

If your agency has a new eligible employee but has not completed onboarding, you must follow these temporary steps:

- Employee must make a decision to join within 30 days of hire date.
- If employee meets eligibility, vesting status must be determined using the retirement plan election (RPE) participation history from the employee. Please call the Administrator Telephone Center for assistance, if needed.

### If employee is eligible and fully vested

- Upon completing the onboarding steps, the agency must recordkeep the contributions.
- Once onboarded, the employee must execute the steps to enroll through the VDC website: **[www.vdc.ny.gov](http://www.vdc.ny.gov)**.
- Thereafter, your agency submits the first census remittance file with the current and arrears contributions.

### If the employee is eligible to participate, they must meet the 366-day vesting period

- Agency must recordkeep contributions (in escrow) until the vesting period is complete.
- Onboarding must be completed as soon as possible.
- Once onboarding is complete, the employee must execute the steps to enroll through Retirement@Work.

## NEXT STEPS – AGENCIES SUPPORTED BY OSC OR OLR

---

For centralized payroll agencies such as the New York State Office of the State Comptroller and the New York State Office of Payroll Administration, TIAA is working with both agencies to complete the onboarding steps.

If you are an OSC-supported Agency, please follow the Payroll Bulletin at **[www.osc.state.ny.us/agencies/pbull/agencies/2013\\_2014/bulet1256.htm](http://www.osc.state.ny.us/agencies/pbull/agencies/2013_2014/bulet1256.htm)**.

# CONTRIBUTION FUNDING INSTRUCTIONS

Funding of your remittances is managed with a single financial transaction to TIAA Trust Services. Funding will be transferred to each investment provider associated with a current remittance file. You may access this instruction on the NYS VDC Website, or [here](#).

Graphics below are for illustrative purposes only.

## NEW YORK STATE VOLUNTARY DEFINED CONTRIBUTION (VDC) PROGRAM FUNDING INSTRUCTIONS

Funding of your remittances will be managed through a single financial transaction. Automated Clearing House or Federal Wire, to TIAA Trust Services using the instructions on the following page. Automated Clearing House and Federal Wire are described below. Funding will be transferred to each investment provider associated with a current remittance file.

- **Federal Wire Transfer Service (Fedwire)**  
The Fedwire Funds Service is used by Federal Reserve Banks to electronically transfer large dollar amounts and time-sensitive payments. The advantage of Fedwire is that it offers immediate funds transfer, if received before 4 p.m. (ET).
- **Automated Clearing House (ACH)**  
The Automated Clearing House Network is an electronic funds transfer system among financial institutions. ACH transfers have a final settlement one day after transfer and are significantly less expensive than Fedwire.

The bank instructions should be in place no later than two weeks before your first remittance to the NYS VDC Program.

Contact your bank as soon as possible to learn how much lead time they require to set up the new instructions.

These steps will ensure that your payments are not delayed due to routing errors.

If you have any questions about electronic payment routing or options, please contact each investment provider.

Note: It is imperative that you provide these instructions as outlined to help avoid a processing delay.

## New York State Voluntary Defined Contribution Program Payment Instructions (For Central Services)

Your agency will remit funding to TIAA-CREF, the Third Party Administrator, for the NYS VDC Program. TIAA-CREF uses Wells Fargo as the Custodian. In order to ensure timely trade-date processing for your plans, please send payments by either Federal Wire Transfer or Automated Clearing House payments to the bank account information listed.

### Automated Clearing House (ACH)

The Automated Clearing House transfer service is a computer-based, batch-oriented clearing and settlement facility for the interchange of electronic debits and credits among financial institutions. ACH transfers have a final settlement one day after transfer and are significantly less expensive than Fedwire.

*Please note: Cash received at the Trust Company before 12 p.m. (ET) will be disbursed the same day. However, the actual investment of the contributions sent to the all downstream investment providers will be determined by their good order determination process and, as such, may not receive the same trade date.*

Contact your bank as soon as possible to learn how much lead time they require to set up the new instructions. Once you have submitted the new instructions to your bank, please be sure to expedite a pre-note transaction. # HOW TO SUBMIT ESCROWED CONTRIBUTIONS

Graphics below are for illustrative purposes only.

## How to Submit Escrowed Contributions

If an employee does not meet the criteria to be immediately vested in the New York State Voluntary Defined Contribution Program, the employer is required to hold the employer and employee contributions in escrow until the employee meets the 366 day vesting period.<sup>1</sup>

Agencies are required to record keep the escrow contributions on a per pay period basis. Once an employee meets the required vesting period, the escrowed employer and employee contributions plus 4% simple interest (as required by Article 8B, Section 392 of the Education Law) must be added to your remittance file along with the first vested contribution.

### Example:

- Employee is hired on August 1, 2014 and must meet the 366 day vesting period
- Employee becomes vested on August 1, 2015 after meeting the 366 day vesting period
- Employee can be added to the remittance file after August 1, 2015; contributions should not be remitted prior to this date

The escrowed employer and employee contributions plus interest (*simple interest calculated at 4%*) on those contributions plus the first vested contribution are remitted in the pay cycle following the date that the employee meets their vesting requirement

### Example:

The escrowed contributions and the first vested contribution plus interest should be added together and submitted on the respective remittance file

Escrowed Employer Contribution Total	\$1300
Interest on Escrowed Employer Contribution @ 4%	\$ 52
<u>First Vested Employer Contribution</u>	<u>\$ 50</u>
Total Employer Contribution (Source F)	\$1402*

\*This is the amount that you will report on your remittance file for Source F

Escrowed Employee Contribution Total	\$ 800
Interest on Escrowed Employee Contribution @ 4%	\$ 32
<u>First Vested Employee Contribution</u>	<u>\$ 30</u>
Total Employee Contribution (Source I)	\$ 862*

\*This is the amount that you will report on your remittance file for Source I

<sup>1</sup> The vesting period may be waived for employees coming to public employment within New York State with active, employer-sponsored retirement annuity contracts from any of the currently Authorized Investment Providers.

# LOOK BACK NOTICE

Graphics below are for illustrative purposes only.

## TIER VI Bulletin

### Two-Year Look Back

**Purpose:**  
To provide instructions on how to update a Tier VI employee's retirement plan for two-year look back.

**Background:**  
On March 18, 2012, the Governor signed legislation creating Tier VI. This tier applies to employees who join after March 31, 2012. Effective with the first checks in April 2013, legislation required the employee contribution on the employee's annual wage. Once a Tier VI member has reached three years of membership, his or her contribution is based on total pensionable earnings from two years prior.\*

**Employee Contribution Rate:**  
Changes impacting TIER VI PLAN participants in the SUNY Optional Retirement Program (ORP) including the Voluntary Defined Contribution Program (NYS VDC Program) are shown below:

Wages	Contribution Rate
\$45,000 or less	3%
Wages between \$45,000.01 to \$55,000	3.5%
Wages between \$55,000.01 to \$75,000	4.5%
Wages between \$75,000.01 to \$100,000	5.75%
Wages of \$100,000.01 or more	6%

**Note:** For part-time employees, contributions are calculated based on the full-time equivalent salary rate based on actual part-time salary.

**Employer Contribution Rate & Look Back:**

- The current employer contribution rate is 8% of gross salary.
- For the SUNY ORP participants ONLY: The employer contribution rate is 8% of gross salary for the membership service, and 10% thereafter.
- Under the legislation, the annualized calendar year salary, for purposes of contribution calculations, is salary looking back two years.

**Once a Tier VI member has reached three years of membership, his or her contribution rate is based on earnings from two years prior.**

For the SUNY ORP, the effective date of the look back is January 1, 2015.

**IMPORTANT:** While participants in the NYS VDC Program are participating in the SUNY ORP, the effective date of the look back is January 1, 2018.

This date follows two consecutive years from the date on which the SUNY ORP was expanded to include any public employer within NYS, including NYC, public authorities and local municipalities.

\* Total earnings should include pensionable earnings from all job records.

Plan services provided by 

## Tier VI: SUNY ORP Program Entrant, employee plan entry date April 1, 2012:

- April 1, 2012 through April 1, 2013: Contributions calculated using employee current annualized calendar year salary and based on Tier IV rates.
- Effective April 1, 2013: Contributions calculated using the annualized calendar year salary on the plan entry date and the table above.
- Effective January 1, 2015: Contributions will be calculated using the annualized calendar year salary as of January 1, 2015, and the table above.

## Tier VI: NYS VDC Plan Entrant, employee plan entry date July 1, 2013:

- July 1, 2013 through July 1, 2015: Contributions calculated using the annualized calendar year salary on the plan entry date and the table above.
- Effective July 1, 2015: Contributions will be calculated using the total pensionable earnings as of July 1, 2015, and the table above.

## ESCROW ACCOUNT MANAGEMENT

Under the State University of New York Retirement Plan

During the first 366 days, employer and employee contributions should be held in escrow until the participant is vested (366 calendar days of service).

- Plan Administrators or their payroll provider will need to calculate the interest earned while contribution monies are held in the escrow account using a simple per annum formula as shown below.
- The recordkeeping of the employer and employee contributions is maintained by the agency and it is necessary to comply with plan reporting. This includes amounts reportable on the employee's W-2.

**Example: Employee contributions**

Total amount of employee contributions in a 366-day period	X	Interest rate set by Law*	=	Annum = 1
Example: \$1,500	X	4%	=	\$60

**Example: Employer contributions**

Total amount of employer contributions in a 366-day period	X	Interest rate set by Law*	=	Annum = 1
Example: \$4,000	X	4%	=	\$160

\* Note: The interest rate used in the calculation above is set by New York State law, Article 88 of the NY Education Law 392(4) which states 4% simple, subject to change.
