Plan management support to help you minimize risk

Assistance in understanding and managing your responsibilities

Plan compliance ranks high on the list of plan sponsor priorities these days. Given increased oversight, growing complexities, and the potential high cost of noncompliance, careful planning and ongoing governance can be critical in helping you manage your plan and meet your fiduciary and compliance responsibilities with confidence.

Whether working on your own or with the support of an advisor, TIAA can assist you in managing ever-increasing regulatory demands — helping you to stay focused on maintaining a competitive plan that may help your participants achieve financial well-being. Please note that TIAA cannot and does not provide legal or tax advice and that we recommend that you consult your own legal counsel for such advice.

Solutions to help maximize your efficiency in compliance

TIAA's plan sponsor services include a robust suite of solutions to help you understand and achieve your fiduciary obligations and plan compliance.

- **Plan Document Service** to help you meet documentation requirements
- **Investment Services** to help you take charge of your fiduciary responsibilities
- **Compliance Monitoring Services** to help you prevent noncompliant transactions and contribution limit violations, and assist with nondiscrimination testing
- **Financial Reporting & Plan Audit Services** to simplify your IRS and Department of Labor (DOL) filings and associated plan financial audits, if applicable
- **Service & Fee Disclosure Support** to help you meet your regulatory and fiduciary responsibilities, assess plan fees and expenses, and satisfy your annual participant disclosure requirement

Potential costs of noncompliance

In fiscal year 2018, the Employee Benefits Security Administration (EBSA) closed 268 criminal investigations. EBSA's criminal investigations, as well as its participation in criminal investigations with other law enforcement agencies, led to the indictment of 142 individuals – including plan officials, corporate officers, and service providers – for offenses related to employee benefit plans.*
