Making transfers and withdrawals from the TIAA Traditional Annuity

How you can use TIAA’s Transfer Payout Annuity
Moving your TIAA Traditional funds

You can use TIAA’s Transfer Payout Annuity to move your retirement funds out of the TIAA Traditional Annuity. Use this guide to learn more about this option as you pursue your financial goals and your plans for retirement.

1 When TIAA Traditional Annuity is made available in an employer-sponsored retirement plan, income and withdrawal options are subject to the terms of the plan. Withdrawals prior to age 59½ may be subject to a 10% federal tax penalty in addition to ordinary income tax.

2 The TIAA Traditional Annuity is issued by Teachers Insurance and Annuity Association of America (TIAA). There are different rules on how to withdraw money from the TIAA Traditional Annuity depending on the contract(s) available to you.

Get help with an income strategy that suits you

If you have been a long-term contributor to TIAA Traditional, you may receive additional amounts of income by creating a stream of guaranteed lifetime income. That’s why it’s important to consider all your options. As a matter of course, you should review your retirement account periodically during your career and even throughout your retirement. Over time, you may want to adjust your investments or your income options as your needs and goals change. A TIAA consultant can talk with you about your options.
We’ll follow your instructions and move your funds in a series of installments.

*Transfers or withdrawals are done over a period of approximately nine years.

**For retirement annuities**

The Transfer Payout Annuity minimum is the lesser of $10,000 or 100% of your TIAA Traditional account balance. A TIAA consultant can talk with you about your options.

**For group retirement annuities and Retirement Choice**

The Transfer Payout Annuity minimum is the lesser of $10,000 or 100% of your TIAA Traditional account balance. If your employer’s plan permits, you can withdraw or roll over the full TIAA Traditional account balance within 120 days of ending your employment (subject to a 2.5% surrender fee).

You must use a Transfer Payout Annuity for *transfers* to other plan investment options and for *withdrawals* made more than 120 days after ending your employment. If you have a GRA and if your employer’s plan allows, you may also choose a fixed-period annuity (ranging from 5 to 30 years) that can provide you steady, guaranteed income until the period you select ends. A TIAA consultant can talk with you about your options.

See page 8 for information about a Transfer Payout Annuity for TIAA Traditional account balances in after-tax retirement annuities.
And keep in mind...

Transfers or withdrawals from TIAA Traditional account balances in supplemental retirement plans, IRAs and 457(b) plans are available any time. Under these plans, you have the flexibility to move funds into and out of TIAA Traditional as your needs change.
Answers to frequently asked questions

Why do I receive payments in installments?

To understand why transfers and withdrawals are paid in installments, it’s important to understand what TIAA Traditional is designed to do for you.1

TIAA Traditional is designed to help protect your principal as you build a foundation for income in retirement, while also providing you with a guaranteed rate of return.2 To do this, the TIAA General Account—which supports TIAA Traditional—invests in long-term, relatively illiquid assets, that is, assets that are not designed to be quickly bought and sold.3 This approach allows TIAA Traditional to guarantee your principal and offer a minimum guaranteed interest rate. You also have the opportunity for higher returns through additional amounts that the TIAA Board of Trustees may declare each year.4

Making transfers and withdrawals over time provides flexibility, and allows TIAA to meet our guarantees and achieve our goal of paying competitive interest rates.

---

1 Installments under RA, GRA and RC contracts, with the exception of the lump-sum withdrawal option within 120 days after termination with a surrender 2.5% charge under GRA and RC contracts.

2 All guarantees are subject to TIAA’s claims-paying ability.

3 Participants do not invest in the TIAA General Account portfolio, which supports the minimum guaranteed returns, additional amounts and payout obligations under the TIAA Traditional Annuity. The TIAA General Account, which backs the guarantees and benefits of TIAA Traditional, comprises long-term, potentially higher-yielding investments.

4 When declared, additional amounts are in effect for the “declaration year,” which begins each March 1 for accumulating annuities and January 1 for lifetime payout annuities. Additional amounts are not guaranteed for periods other than the period for which they were declared.
Keep in mind what TIAA offers you

- **Flexible income choices.** You have a range of income choices that you can use alone or in combinations, including the option to receive income for life. This can help you create a flexible, diversified income plan.

- **IRAs and brokerage services.** You have the opportunity to invest in mutual funds, exchange-traded funds (ETFs), individual stocks and bonds, CDs and money market funds.¹

---

Financial strength and stability

*For its stability, claims-paying ability and overall financial strength, Teachers Insurance and Annuity Association of America (TIAA) is a member of one of only three insurance groups in the United States to currently hold the highest rating available to U.S. insurers from three of the four leading insurance company rating agencies, and the second-highest possible rating from Moody’s Investors Service:*

- A.M. Best Co.: A++ (as of 7/20)
- Fitch: AAA (as of 11/20)
- Standard & Poor’s: AA+ (as of 8/20)
- Moody’s Investors Service: Aa1 (as of 5/21)

There is no guarantee that current ratings will be maintained. The financial strength ratings represent a company’s ability to meet policyholders’ obligations and do not apply to variable annuities or any other product or service not fully backed by TIAA’s claims-paying ability. The ratings also do not apply to the safety or the performance of the variable accounts, which will fluctuate in value.

---

¹ Brokerage services are provided by TIAA Brokerage, a division of TIAA-CREF Individual & Institutional Services, LLC, Member FINRA and SIPC. Some securities may not be suitable for all investors.
Are transfers or withdrawals taxable?

No, if you:

- Transfer the funds to other investments available through your plan.
- Roll over or directly transfer your funds to an IRA or other qualified retirement account. Rollovers are reported on IRS Form 1099R as a nontaxable distribution.

Yes, if you:

- Receive funds in cash. Cash withdrawals are generally taxable as ordinary income and are subject to 20% mandatory federal withholding. State withholding is based on the state where you live. You may also be subject to a 10% early withdrawal penalty if you withdraw the funds before age 59½. Withdrawals are reported on IRS Form 1099R as a taxable distribution.

What interest rates apply to my Transfer Payout Annuity?

Each Transfer Payout Annuity installment from a Retirement Annuity or Group Retirement Annuity is based on a guaranteed interest rate of 2.5%, plus additional amounts, if any, credited above the guaranteed rate. For Retirement Choice, installments are based on a guaranteed interest rate ranging from 1% to 3%. You also have the opportunity for additional amounts above the guaranteed rate.

Additional amounts are declared by the TIAA Board of Trustees. When declared, they are in effect for the “declaration year” that begins each January 1 for payout annuities. They aren’t guaranteed for periods other than the period for which they were declared. All guarantees are subject to TIAA’s claims-paying ability.
A hypothetical TIAA Traditional Transfer Payout Annuity*

For this illustration, let’s say you move $50,000 of your TIAA Traditional account balance to a Transfer Payout Annuity. We’ll assume a total interest rate of 4% (guaranteed, plus additional amounts).

<table>
<thead>
<tr>
<th>Date of first transfer/withdrawal</th>

<td>$5,927</td>
<td>December 1, 2029</td>
</tr>
</tbody>
</table>

The actual initial payment and future payments will vary depending on the total interest rates in effect. Please note that this is hypothetical and does not reflect the amount you would actually receive. It is not intended to predict or project results. To request a personalized illustration:

- Visit TIAA.org.
- Call us at 800-842-2252. Consultants are available weekdays, 8 a.m. to 10 p.m. (ET).

*Under RA and GRA contracts.

Can I change my Transfer Payout Annuity?

Yes. If your needs or goals change once you begin your Transfer Payout Annuity, you have options:

- Transfer the funds to different investments available under your employer’s plan.
- Transfer the funds back to TIAA Traditional and they will be credited with the interest rates in effect for new contributions. You would have to set up a new Transfer Payout Annuity to move funds out of TIAA Traditional again later.
- Transfer or roll over the funds to a TIAA IRA, another retirement account that will accept them (if available through your employer’s plan) or an IRA you hold outside of TIAA.
- Receive the installments in cash, if available through your employer’s plan.
- Change to another income option. For example, if you retire and are ready to begin lifetime income, you can stop your transfers or withdrawals at any time and convert your remaining account balance to a stream of income that’s guaranteed to last as long as you live. Or, at the time of your next scheduled installment, you can choose to receive TIAA interest-only income from the remaining balance in your Transfer Payout Annuity—as long as the balance is at least $10,000.

If I have a small account balance, what withdrawal or transfer options are available other than a Transfer Payout Annuity?

You may be able to withdraw or transfer the entire TIAA Traditional account balance in your Retirement Annuity, Group Retirement Annuity or Retirement Choice contract if your balance is less than the minimums described below, and:

1. You have terminated employment or
2. These contracts are no longer active funding vehicles in the plan.

Keep in mind that you can do this only once during the life of the annuity contract.

</tr>
</tbody>
</table>
How is Transfer Payout Annuity for the Retirement Choice annuity paid in 84 monthly installments?

The initial transfer or withdrawal amount is 1/84 of your account balance. After that, each installment is based on the number of months remaining in the payment period.

For example, the second month’s payment will be 1/83 of your remaining account balance, then 1/82 for the third month and so on. This continues through the final installment, which will be 1/1—or your entire remaining balance.

What if I have after-tax retirement annuities?

You can move funds out of TIAA Traditional through transfers or cash withdrawals in 10 annual installments.¹ When you do this:

- You must use your entire balance in your TIAA contract, which may include both TIAA Traditional and the TIAA Real Estate Account. This means that to set up a Transfer Payout Annuity for your TIAA Traditional account balance, you must first transfer or withdraw any funds you have in the TIAA Real Estate Account.

  **There is one exception:** If you use your entire TIAA Traditional balance to set up a Transfer Payout Annuity with all transfers going to the TIAA Real Estate Account, you don’t have to first withdraw or transfer any funds you have in the TIAA Real Estate Account. (Note: You can’t subsequently change your Transfer Payout Annuity to direct future transfers to a different account.) A transfer to the TIAA Real Estate Account is not taxable.

- Transfers to other available funds or to another financial company are nontaxable transfers between after-tax annuities. They are reported on IRS Form 1099R as a nontaxable distribution.

- Earnings are generally taxable as ordinary income. If you receive funds in cash, federal taxes will be withheld at the default rate of a married person claiming three allowances or a different amount, if requested; state tax is based on your state of residence. There may also be a 10% early withdrawal penalty if you withdraw funds before age 59½. Withdrawals are reported on IRS Form 1099R as taxable distributions.

¹ Transfers or withdrawals are done over a period of approximately nine years.
- Installments are based on a guaranteed interest rate of 2.5% plus additional amounts, if any, credited above the guaranteed rate. Additional amounts are declared by TIAA’s Board of Trustees and are in effect for the “declaration year” that begins each March 1 for accumulating annuities and January 1 for payout annuities. They are not guaranteed for periods other than the period for which they were declared.

- You may be able to make changes to your Transfer Payout Annuity if your needs or goals change.

- If your TIAA Traditional account balance in your after-tax retirement annuity contract is less than the minimums described below, you may be able to withdraw or transfer the entire balance. You can do this only once during the life of the annuity contract.
